Investment Objective & Strategy

The Columbus Balanced Plus Fund is targeted at institutional clients seeking a higher risk market-linked portfolio with a strong focus on maximisation of returns. The Fund maintains a strategic 70% allocation to equities, with the balance invested in fixed interest instruments and alternative asset classes. 24% of the Fund is invested internationally. A tactical asset allocation overlay is applied. The mandate is ideally suited as a higher risk investment for retirement funds, as well as a more aggressive investment option for funds offering their members investment choice options.

Balancing Risk and Reward

The Columbus Balanced Plus Fund is suitable for investors seeking higher returns who are willing to tolerate a higher volatility of monthly returns. The product is also suited to investors who aim to maximise capital accumulation over a longer-term time horizon. The strategy complies with Regulation 28 of the Pension Funds Act and is therefore suitable for investors in retirement annuities, preservation funds, pension funds and provident funds.

The recommended investment term for investors in the Columbus Balanced Plus Fund is a minimum of five years. The product has a medium to high risk profile as it has a 70% strategic allocation to domestic and global equities. The risk in the product is managed by spreading investments across asset classes, as well as among a number of different asset management houses. The former ensures diversification of sources of returns over market cycles, while the latter ensures diversification of investment styles and philosophies in the manner in which the assets are managed. Tactical asset allocation is used to take advantage of short-term mispricing opportunities in the market in an efficient and costeffective manner and as a risk management tool in times of market downturns.

Fees

Sygnia charges an annual management fee comprised of applicable basic fees paid to underlying managers and Sygnia's annual service fee.

Sygnia does not provide advice and therefore does not charge advice fees. If a financial planner is appointed, initial and ongoing advice fees may be payable as agreed upon between you and your financial advisor.
